

KS Dance Course Rationale

The course curriculum aims to develop the students' movement vocabulary, with which to explore and refine exciting and imaginative ways of moving both individually and collaboratively.

The course' focus is on: Technique and expressive performance skills, moving with purpose and creativity and intelligence, all while expanding the students' understanding of personal, social, emotional and physical communication through movement confidently.

The course provides students with the capacity to engage, inspire and reach their creative and expressive potential, enriching students' choreographic skills, performance skills and appreciation of their own and other students work produced.

Active participation as Dancers, Choreographers and Audience Members promotes wellbeing and social inclusion.

The learning in dance and through dance enhances students' knowledge and understanding of diverse cultures and differing styles, dance history, eras and locations. Students develop their personal, social and cultural identity.

It is the mission of the college and Kate Simmons to train Dancers to the highest level producing hardworking, talented individuals who will thrive in the Dance and Performing Arts Industries. Our training delivers impeccable guidance to the students whom are mentored by a selection of the World's Premier Teachers. The college prepares Dancers for the career path of their choice; From Classical Ballet to West End and International Theatre, TV, Cruise contracts to starting their own Dance School.
